## Job Description

Coordinate regional demand forecasting and supply planning to ensure timely delivery of medical devices. Collaborate with international teams to manage inventory and drive operational efficiency.

**Client Details**

Our client is a rapidly growing medical device company focused on delivering high-quality products to healthcare institutions.

They emphasize innovation and excellence in their supply chain operations.

### Description

- Create and manage inventory and replenishment plans.
- Coordinate data updates, purchase orders, and overseas shipments.
- Work with the logistics team for inbound operations, including customs clearance.
- Adjust plans with production sites and global operations as needed.
- Monitor and improve key performance indicators (KPIs) such as forecast accuracy and inventory levels.
- Build and maintain relationships with local and overseas stakeholders.
- Collaborate with the APAC supply chain management team

### Job Offer

- Opportunity to make a significant impact in a fast-paced, innovative environment.
- Collaborate with a diverse, international team dedicated to excellence in supply chain management.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

---

### Required Skills

- University degree, fluent in English (written and verbal) and Japanese
- Strong analytical and problem-solving skills.
- Excellent communication and negotiation abilities.
- Proficiency in MS Office and ERP systems (e.g., SAP, Oracle).
- Self-starter, adaptable, and able to work under pressure.
- Minimum 5 years of business experience, with at least 3 years in supply chain management.
- Team player with a continuous improvement mindset.
