Job Description

Support project management and coordination for a large European bank that is extremely active in the APAC region. As a dual project manager/business analyst you will both perform analyses and help deliver projects in a global environment.

Client Details

With over 100 years of history, our client is not only one of the largest in Europe, but also one of the largest banks in the world. Operating in over 50 countries with millions of users all over the globe, you will be working in a truly international environment in a company that is an undisputed titan of its field.

Description

- Perform business analysis related to linear rates and JGB/UST products
- Develop new projects/applications with the assistance of software engineers in Europe and Asia, especially focusing on solutions with ION / Orchestrade / Jetstream
- Create project documentation in English (including taking meeting minutes)

Job Offer

- A great degree of autonomy in delivering projects
- Work in an international environment, including coordinating multi-national teams
