## Job Description

**Role Value Proposition:** This role involves transitioning from a major beverage logistics company to a new entity, focusing on building, operating, and technically supporting cloud environments. The engineer will lead SRE and DevOps initiatives, creating and maintaining CI/CD platforms and multi-cloud infrastructure to align with our digital strategies.

**Key Responsibilities:**

- Collaborate with external vendors, technology partners, including Accenture, to:
- Implement and support enterprise cloud services (Azure, AWS).
- Automate processes using cloud-native services and CI/CD tools.
- Build and maintain tenant and organizational-level cloud services.
- Design and maintain various cloud resources; participate in projects as needed.
- Develop and update best practices and standards for cloud services.

**Essential Business Experience and Technical Skills:**

- Minimum 3 years of experience in building, operating, and maintaining cloud or on-premise IT infrastructure.
- Hands-on experience in Azure cloud or CI/CD platforms.
- Proficiency in Japanese (business level); N3 level or higher. Must have work permission in Japan.

**Desirable Skills:**

- IT operational background in the distribution and consumer goods sector.
- Experience as a server administrator in Windows Server or Linux environments.
- Familiarity with Azure, AWS PaaS/IaaS, and tools like GitHub, GitHub Actions, Entra ID, Azure Express Route, VNet, and Gateway.
- Strong communication skills and a history of positive stakeholder interactions.
- Business English proficiency (TOEIC score of 600 or equivalent preferred).

**Benefits and Attractions:**

- Engage in IT projects with major logistics and consumer goods companies, gaining vital industry knowledge and skills.
- Enjoy work-life balance with flexible work policies as part of a prestigious brand group.
- Opportunities for continuous learning and career growth.
- Work in a culture that prioritizes principles, innovation, and inclusivity.
- Play a role in a company committed to positive social and environmental impacts.
