Job Description

JOB RESPONSIBILITIES

- Act as a Delivery member of IT consulting services for Japanese companies in Vietnam and Vietnam companies.
- By gaining skills in business reform, IT implementation planning, and Digital Transformation you will have more options in the future to work as a senior consultant, or to work as a Business/IT Architect in IT department or a Data Scientist of a business company
- Collect information about the client's business through a variety of methods (shadowing, interviews, surveys, reading reports etc.).
- Analyze and interpret facts to identify weaknesses and problems, and comprehend the causes.

- Understand critical issues of the client's operations and its IT systems, and create a counterproposal for the client to improve its management and operation.
- Deliver and Work as a project member and create key deliverables (e.g.
- Assessment documents, Business Process Flow, Business Requirement Definition, Fit & Gap analysis with a certain application function).
- Propose appropriate measures to fill gaps using IT or non-IT solution.
- Negotiate and facilitate key discussions in both Vietnamese and English.
- Work closely with project managers to deliver appropriate consulting services for our clients.
- Support presales and creating a proposal for consulting projects.
- Support managers for recruiting new employees, finding alliance partners in Vietnam, and reporting to the Headquarter.
