Job Description

The Bilingual Project Manager is responsible for the implementation of company's supply chain planning solutions, managing budgets, schedules, and resources. You will be the primary interface with clients, ensuring successful project delivery and post-go-live support. This position is open to mid level~senior manager level.

Client Details

Our client is one of the fastest-growing enterprise SaaS companies. Their AI-powered, cloud-native platform is transforming decision-making in supply/demand planning for major global enterprises. With a high-energy, people-centric culture, they pride themselves on being the most valuable partner to their clients. Clients are major global enterprises in North America, Western Europe, Eastern Europe and Asia/Pacific.

Description

- Manage the complete lifecycle of projects.
- Develop and align detailed project plans with all stakeholders.

- Track progress, document deviations, and develop mitigation plans.
- Provide regular project status updates to stakeholders.
- Approve timesheets and invoices promptly.
- Ensure team members understand their tasks and deliverables.
- Document and manage project risks and issues.
- Provide knowledge transition and documentation post go-live.
- Engage with customers to manage priorities and expectations.

Job Offer

- Competitive salary and stock options for eligible candidates.
- High-growth organization with a strong entrepreneurial culture.
- Supportive team environment with opportunities for learning.
- Diverse and international working environment.
- Commitment to work-life balance.
- Flexible remote work
