Job Description

PlayBrain's Products team imports and produces game related products for the Japanese market. The Product Logistics Coordinator will be primarily responsible for working with our manufacturing and brand partners to acquire products and import them into Japan. Future expansion may include export of our original products to foreign markets.

PlayBrain is..

Founded in Tokyo in 2016, PlayBrain develops and fosters communication channels with gamers. From our Tokyo headquarters, we are part of the Japanese gaming community, allowing us to understand the interests and passions directly. With our strong international network, we connect with gamers and businesses involved with games around the world creating unique opportunities in Japan and abroad.

Responsibilities:

- Import and export management of shipping agents and partners
- Management of manufacture
- Local Logistics coordination
- Inventory management
- Stock keeping

Required Skills

Must have skills:

- Business level Japanese and English (other languages a bonus... esp. Chinese)
- 4+ years of experience in similar field
- University or equivalent qualification or additional 4 years experience in the field
- Familiarity with Japanese import customs process
- Familiarity with shipping processes (although we work with shipping agents for coordination)

Good to have skills:

- Interest in game culture
- Experience working with manufacturing companies in the area of toys and/or apparel

Company Description
