Job Description

【求人No NJB2210455】

ソフトウェアの導入プロジェクトの技術コンサルティングをお任せします。
予算、予測、スケジュール、リソース、実績管理の機能をカバーする、統合ソリューションです。
組織にとって最も重要な案件にフォーカスし、可視化させるツールです。
コミュニケーションの改善にも繋がり、プロジェクトの戦略的・迅速な進行、組織の発展に貢献します。
フォード、ファーウェイ、ファイザー、ソシエテジェネラルといったグローバル企業や、ゼブラ、ビームサントリー、MSA

セイフティなどで当社製品を採用し、プロジェクトパイプラインを管理しています。

■Your mission

After a training period configure and deliver Software solutions.

In this role with high added value you will be responsible for executing the configuration of quality application solutions with our software which will support the innovation processes of our major Japanese customers.

As a Senior Consultant you will be able to take direct responsibility for the transcription of a particular customer process involving understanding the customer's needs and processes and directing them towards the optimal solution.

This Senior Consultant position truly represents a unique opportunity to express and advance your talents and skills in information systems in Japan while gaining direct access to the most advanced research and development management practices of Innovation focused companies in Japan.

■As a Senior Consultant

You will be assigned to and when you gain more experience potentially lead a project team and participate actively in relevant business discussions with our Customers.

You will configure test validate and support applications for clients.

You will use our own APIs to write your own code (Javascript) .

You will learn to know the Business needs of the Customer and as your skills increase you will propose solutions on how can cover these needs and participate in the success of the client in terms of Innovation Management.
