### Job Description

【求人No NJB2229150】

<Scope of Job>

Responsibility for stabilization local process enhancement training and ongoing support of MORE (SAP S/HANA) cross domain processes for our firm and a foreign base with focus on logistics (inbound outbound EDI warehouse) processes / domains but covering also purchasing production topics up to controlling/reporting (no experience needed here learning by doing) .

## &lt;Main Responsibilities&gt;

- MORE (the customized S/4 HANA template) Stabilization Enhancement Support Training for logistics domains
  - Provide first level support for SAP MORE.
  - Support the stabilization enhancement of the new MORE template as local process expert cooperate with BJ staff/key users as well as IT / MORE template in specific plants/companies.
  - Support the necessary change management provide functional / technical guidance for the implementation of the new MORE template
  - Ensure alignment optimization harmonization efficiency for all cross legal entity processes data transactions within region Asia 1 (Japan/Thailand)
    - Develop local process documentation and develop manuals in a condensed practical easy to understand manner and addressing processes cross domain/cross functionally.
    - Establish a training program and provide training to local key users and to end users.
- Project support for other Business Units/regions
  - Support other BUs or plants during MORE roll outs as needed and if time permits.
  - Support cross BU learning and know how transfer by applying knowledge obtained at BU3/MBJ.
- Other assignments from superior:
  - Superior may assign specific tasks according to internal and external requirements.
  - Includes review of other (non SAP) business driven applications interfacing with our users and IT as needed.

## Required Skills

## Job Requirements:

- Bachelor's Degree or higher in Accounting Finance or Business Administration
- 3+ years of experience in controlling finance accounting in a manufacturing environment
- Excellent knowledge of SAP logistics module (s)
- Exposure to or interest in covering related domains especially production purchasing warehousing
- Experience in ERP/SAP implementations preferably in template rollouts
- Good Japanese English language skills: written English and spoken Japanese necessary (fully fluent for both languages is preferred by clearly not necessary)

## Personal Competence:

- Team player
- Problem solving Networking communication skills
- Ability to professionally write reports and present information
- Interest in cross domain topics i.e. to make SAP work across the company in all processes as opposed to domain/function centric optimizations
- Ability interest to work with key users and management to fully leverage S/4's capabilities for the benefits of the company plants

## Optional

- Lead SAP topics functionally without formal authority over key users
- Lead of process enhancement initiatives projects based on process knowledge and data.
