

# CYIENT

## Circuit Design Lead engineer

### Job Information

**Hiring Company**

[Cyient K.K.](#)

**Subsidiary**

Cyient Japan

**Job ID**

1491803

**Industry**

Electronics, Semiconductor

**Job Type**

Permanent Full-time

**Location**

Kanagawa Prefecture, Atsugi-shi

**Salary**

4 million yen ~ 12 million yen

**Refreshed**

February 26th, 2025 09:00

### General Requirements

**Minimum Experience Level**

Over 6 years

**Career Level**

Mid Career

**Minimum English Level**

Daily Conversation

**Minimum Japanese Level**

Native

**Minimum Education Level**

Bachelor's Degree

**Visa Status**

Permission to work in Japan required

### Job Description

- Analog design expert responsible for overseeing, managing and hands-on design of the analog circuitry
- Experiences required
- Extensive industrial experience (15+ years) in the analog and mixed-signal integrated circuit design
- Solid knowledge of Analog circuit blocks: design of voltage/current references, amplifiers, comparators, filters, temperature and voltage sensors, oscillators, LDOs.
- Ensure compliance with industry standards and regulations, such as EMI/EMC and safety.
- Mandatory competencies
- Language: Fluency in English & Japanese, both written and spoken.
- Problem-solving skills: Able to solve problems and implement solutions autonomously.
- Social skills: Able to work in a global team.
- Tool skills: fluent in the use of Virtuoso schematic editor for circuit design, ADE Maestro (Assembler & Explorer) for circuit verification and knowledge of Spectre simulator. Ability to use Unix/Linux commands. Ability to use Microsoft Office software (Excel, PowerPoint, Word, Outlook). Experience using version control tools (Subversion)
- Able to do high-level system definition and derive block-level specification, based on the optimal performance trade-offs.

- Able to design various analog circuits from scratch based on a given set of specifications.
  - Able to support the verification team in debugging measurement and/or yield issues.
  - You have the drive to share your knowledge and look across teams to improve overall quality and execution.
  - Able to set layout constraints and verify layouts are meeting the desired quality.
  - Excellent critical thinking and problem-solving skills.
- 

## Required Skills

- Layout design experience
- Chip validation experience
- functional safety design and evaluation experience.
- Microsoft visio

Mandatory Skills : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

Desired Skills : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

Skills To Be Evaluated On : Problem Solving,Mixed-Signal IC Design,Design,Mixed Signal,Analog Circuitry,Circuit Designs

---

## Company Description
