Job Description

《本ポジションのミッション及び魅力》

- 山形工場における資材管理マネージャーとして20名のメンバーマネジメント
- APACのサプライチェーンチームとのグローバルMTGに参加。
- 当社の取引先は外資の世界トップシェアを誇る半導体企業
- 資材管理者としての自社工場における在庫管理はもちろん、3PLの管理も担当。
- 他エリアからの入社でも安心な、引越などサポートあり。

The Role:

The core purpose is the mission of the job – why it needs to be filled and how it fits into the organization. By narrowly defining the Core Purpose, you're able to define what's needed to solve the existing business challenge(s)

- Material Management function consists of two teams, buyer and warehouse.
- Material Manager needs to:
 - Manage Raw material supply from internal and external, and inventory.
 - Manage People and build strong team.
 - Manage Suppliers with good communication.
 - Supervise warehouse manager who manages in-plant warehouse operations and outsourced operation (3PL)
 - Response to audits not only financially but ISO and RBA

In this role you will:

What are the expected outcomes? What must this role get done in order to meet your business objectives? Define “what success will look like.

Material Management Manager manage buyers roles below

- Create and process standard purchase orders (PO), outline agreements in SAP to approved vendors (under Global AVL) to optimize inventory.
- Manage supplier order and delivery confirmations and update order details into SAP on a timely manner.
- Communicate any supply gaps back to operations in line with escalation path.
- Update schedule and expedite materials to meet the latest production plan.
- Resolve shipment/warehouse and customs related issues with logistics.
- Follow up with Freight forwarders/Couriers to meet PO delivery ETD/ETA.
- Track supplier performance to commit dates/contracted lead-times and cost.
- Initiate/conduct negotiation with suppliers on tactical execution to improve delivery, quality, performance etc. to meet factory demand.
- Establish and maintain effective relationships with suppliers.
- Manage Supplier quality issue causing block stock and work with QA, SQE, CM for further action/resolution with supplier including RMA/RTV.
- Manage invoice exceptions (VIM) and resolve issues with suppliers and finance.
- Maintain material master/ Purchasing Info Record in SAP to optimize purchasing methods or support NPI. This should be reviewed on monthly basis for active materials.
- Maintain a organization that allows in-house departments to reliably support outsourced companies, and manage and supervise them.

And need to supervise warehouse manager, review their operation and advise what they should do periodically.

Your success will be measured by:

Success for the role is not defined solely on the outcome of a project but rather a combination of the results and how these results were achieved. Describe the PACE value competencies that are required.

- Performance that is aligned with company, divisional, plant and material management team's goal with adherence to PACE value which encourage people, teamwork, accountability, creativity, and dedicate to excellence.
- People and Teamwork: Work well with team member and operations team in Yonezawa and oversea by having the mind of tenderness and kindness to other, sincere and modest.
- Accountability, Integrity and Trust: Follow through on commitments and communicate results appropriately.
- Creativity and Innovation: Ability to think outside the box on issues or escalations to solve issue quickly.
- Dedication to Excellence: Delivering smooth and seamless material supply to production with well controlled inventory.
