Job Description

This is a Bilingual Project Manager position at AI-powered Supply Chain Planning solutions company headquartered in the US. We are looking for Project Manager at all level from associate ~ mid ~ senior level.

Client Details

Our client is one of the fastest-growing enterprise SaaS companies. Their AI-powered, cloud-native platform is transforming decision-making in supply/demand planning for major global enterprises. With a high-energy, people-centric culture, they pride themselves on being the most valuable partner to their clients. Clients are major global enterprises in North America, Western Europe, Eastern Europe and Asia/Pacific.

Description

- Manage the complete lifecycle of projects.
- Develop and align detailed project plans with all stakeholders.
- Track progress, document deviations, and develop mitigation plans.

- Provide regular project status updates to stakeholders.
- Approve timesheets and invoices promptly.
- Ensure team members understand their tasks and deliverables.
- Document and manage project risks and issues.
- Provide knowledge transition and documentation post go-live.
- Engage with customers to manage priorities and expectations.

Job Offer

- Competitive salary and stock options for eligible candidates.
- High-growth organization with a strong entrepreneurial culture.
- Supportive team environment with opportunities for learning.
- Diverse and global working environment.
- Commitment to work-life balance.
- Flexible remote work

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mana Chuabangon +81 3 6627 6080.

Required Skills

- Experience in software **project management** through the full lifecycle
 - **Fluent in Japanese** to communicate with clients.
 - **Business level English** to communicate with internal teams.
 - Good to have experience relating to supply chain planning or relevant solutions; or working in the supply chain/logistics domain.
-

Company Description

This is a rapidly growing enterprise SaaS company base in the United States. They offer digital transformation planning and decision-making on Supply Chain/Demand Planning for enterprises globally with solution that built entirely on AI-technology and is fully cloud-native.

The company operates with a high-energy, values-driven, and people-centric culture, aiming to be the most valuable partner to clients. Clients are major global enterprises in North America, Western Europe, Eastern Europe and Asia/Pacific.
