Job Description

[About Project]

This involves a new hire for a long-term engagement.

Client (Automotive) has a complex data platform. And want to setup data tower for data operation and maintenance

The candidate will have opportunity to lead a varied team of around 20-30 members including onsite and offshore, for Data operation and maintenance

The client is one of the prestigious Japanese Automotive company that will offer a unique peak into a mixed American/European/Japanese experience.

[About tasks]

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Drive the transition from other vendors
- Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Ensure resource availability and allocation

Develop a detailed project plan to track progress

- Use appropriate verification techniques to manage changes in project scope, schedule and costs
- Measure project performance using appropriate systems, tools and techniques
- Report and escalate to management as needed

Manage the relationship with the client and all stakeholders

- Perform risk management to minimize project risks

Establish and maintain relationships with third parties/vendors

- Create and maintain comprehensive project documentation

Required Skills**[Must]**

- 5 years of experience as a onsite Project Manager

Experience with legacy conversion

· Solid technical background, with understanding or hands-on experience in software development and data technologies especially AWS, Snowflake, Talend

- Experience in Data Operation and Maintenance, AMS
- Experience in AMS transition
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multi-tasking skills
- Problem-solving and conflict-resolution ability
- Outstanding organizational skills
- Degree in Computer Science, Business or similar field
