Job Description

【Project detail】

This involves a new hire for a long term engagement.

Client (Banking) has a complex legacy ecosystem built upon various technologies which include for instance COBOL, C, VB/ASP.

The engagement would be to take the client as-is environment and over various projects (multi-year) uplift and modernize their entire stack.

Project period:3-4years

【Advantages of the position】

The candidate will have opportunity to lead a varied team of around 20-30 members including onsite and offshore, for multiple projects under the same engagement.

The client is one of the more prestigious Japanese investment banks that will offer a unique peak into a mixed American/European/Japanese experience.

【Career path】

Lead team of highly skilled professionals in global environment.

Prospect to grow into program management across different industries.

【Role】

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Ensure resource availability and allocation

Develop a detailed project plan to track progress

- Use appropriate verification techniques to manage changes in project scope, schedule and costs
- Measure project performance using appropriate systems, tools and techniques
- Report and escalate to management as needed

Manage the relationship with the client and all stakeholders

- Perform risk management to minimize project risks

Establish and maintain relationships with third parties/vendors

- Create and maintain comprehensive project documentation

Required Skills

【Required skills】

- 5 years of experience as a onsite Project Manager

Experience with legacy conversion

- Solid technical background, with understanding or hands-on experience in software development and web technologies
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multi-tasking skills
- Problem-solving and conflict-resolution ability

*Language

- Japanese skills are required to understand existing system specification and design documents
- English skills are required to communicate with offshore

【Nice to have skills】

- PMP or Scrum master certification is a plus
- Experience in leading multiple projects
- Web development background
- Willing to manage Operation Projects

Company Description
