### Job Description

[Project detail]

This involves a new hire for a long term engagement.

Client (Banking) has a complex legacy ecosystem built upon various technologies which include for instance COBOL, C, VB/ASP.

The engagement would be to take the client as-is environment and over various projects (multi-year) uplift and modernize their entire stack.

Project period:3-4years

**[Advantages of the position]**

The candidate will have opportunity to lead a varied team of around 20-30 members including onsite and offshore, for multiple projects under the same engagement.

The client is one of the more prestigious Japanese investment banks that will offer a unique peak into a mixed American/European/Japanese experience.

**[Career path]**

Lead team of highly skilled professionals in global environment.

Prospect to grow into program management across different industries.

**[Role]**

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
  - Ensure that all projects are delivered on-time, within scope and within budget
  - Developing project scopes and objectives, involving all relevant stakeholders and ensuring technical feasibility
  - Ensure resource availability and allocation
- Develop a detailed project plan to track progress
- Use appropriate verification techniques to manage changes in project scope, schedule and costs
  - Measure project performance using appropriate systems, tools and techniques
  - Report and escalate to management as needed
- Manage the relationship with the client and all stakeholders
- Perform risk management to minimize project risks
- Establish and maintain relationships with third parties/vendors
- Create and maintain comprehensive project documentation

## Required Skills

**[Required skills]**

- 5 years of experience as a onsite Project Manager
- Experience with legacy conversion
- Solid technical background, with understanding or hands-on experience in software development and web technologies
  - Excellent client-facing and internal communication skills
  - Excellent written and verbal communication skills
  - Solid organizational skills including attention to detail and multi-tasking skills
  - Problem-solving and conflict-resolution ability

**\*Language**

- Japanese skills are required to understand existing systems specification and design documents
- English skills are required to communicate with offshore

**[Nice to have skills]**

- PMP or Scrum master certification is a plus
- Experience in leading multiple projects
- Web development background
- Willing to manage Operation Projects

## Company Description
