### Job Description

The SAP (Senior) Project Manager (Pre-sales) will be responsible for leading and delivering SAP programs and projects, including Greenfield implementations and rollout activities across the Asia-Pacific region. The role involves supporting business processes, engaging in pre-sales activities to acquire new clients, and driving the growth of existing clients. The candidate will collaborate with regional management on growth strategies, lead and coach team members, and manage ERP implementations. The ideal candidate will have over 10 years of SAP experience, with a strong background in project management, pre-sales, and consulting, along with fluency in Japanese and English. A passion for project management, strong leadership, and excellent communication skills are essential for this role.

### Required Skills

- Over 10 years of experience in SAP, with a strong background in consulting, project management, and pre-sales.

- Experience managing large ERP implementations (project size > 50M JPY).
  - Fluent in both Japanese (JLPT N2) and English (verbal and written).
  - Strong understanding of SAP modules, processes, and ERP systems.
  - Proven pre-sales skills and an established professional network in the region.
  - Leadership and team management abilities, with experience mentoring and guiding team members.
  - Strong analytical, problem-solving, and decision-making skills.
  - Excellent communication and interpersonal skills, with a passion for project management and collaboration.
-
