Job Description

Join a vibrant team in Tokyo as a Data Analyst, where you'll be the backbone of data preparation for reporting and insights. This hands-on role involves managing and refining datasets with SQL, building dashboards, and supporting the analytics team to drive informed business decisions. Perfect for someone detail-oriented and eager to grow with industry-leading tools.

Client Details

The company is a global leader in creative software and digital experiences, empowering millions to design, create, and connect. Known for innovation and a collaborative culture, they're shaping the future of digital creativity.
Description

- Prepare, clean, and manage large data sets for reporting.
- Use SQL to build datasets for others to analyze.
- Develop dashboards and reports (training available for PowerBI and Tableau).
- Work with team members to meet business data needs.
- Troubleshoot data issues and ensure data security and confidentiality.

- Train team members on using reports and dashboards.

Job Offer

- Hybrid working model with remote flexibility.
- Opportunities to expand skills in PowerBI, Tableau, and data management.
- A role within a collaborative and innovative team environment.
- Competitive compensation package.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Naoko Toda at +81 3 6832 8648.

Required Skills

- Proficient in SQL, with experience in data handling and preparation.
- Skilled in Excel for modeling and data presentation.
- Understanding of statistical concepts and data interpretation.
- Strong written and verbal communication skills.
- Team player with the ability to prioritize tasks.
