Job Description

COMPANY OVERVIEW

Located in Wuppertal, the company is a Japanese global manufacturer. With offices around the world, the company possesses industry-leading technology.

JOB RESPONSIBILITIES

As a sewing engineer, your role will involve creating prototypes during the research and development (R&D) phase. Key responsibilities include:

- Sewing various prototypes for R&D purposes.
- Participating in meetings with sales and R&D teams.
- Engaging in occasional customer meetings.

JOB REQUIREMENTS

- Sufficient experience in sewing
- Ability to communicate in English

BENEFITS

- Opportunities to be involved in global product development

- Various training programs

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
