Job Description

About the Procurement Engineer Role:

Engage with stakeholders in new product introduction, manage costs, ensure quality, mitigate supply chain risks, and lead special projects.

Key Responsibilities:

- Engage with customers, engineering, quality, purchasing, and suppliers throughout the new product introduction process, from part design to mass production, ensuring critical timelines and target costs are met
- Ensure cost, quality, and availability targets are achieved for new product introductions and maintained throughout the product lifecycle
- Manage cost-related activities, including negotiation, identifying cost drivers to influence design decisions, reviewing

and negotiating supplier terms and conditions, and supporting price negotiations

- Collaborate with Supplier Quality during the new supplier/component release process, focusing on compliance and sustainability
- Manage Last Time Buy activities to minimize obsolescence risk
- Work with internal teams and suppliers to develop capabilities, ensure continuity and capacity, and identify and mitigate supply chain risks
Lead special projects and key initiatives or perform other duties as assigned

To succeed as a Procurement Engineer, develop strong negotiation and analytical skills, and build solid relationships with suppliers and internal teams. Stay updated on industry trends and focus on compliance and sustainability.

Key Requirements:

- Bachelor's Degree in mechanical engineering or related fields
- Minimum 3 years of relevant experience in technical procurement experience electromechanical
- Strong analytical, communication, and presentation skills
- Ability to work independently and as part of a team
- Willingness to travel frequently, entertain customers, and visit suppliers
- Prior procurement experience with electromechanical components for medical device manufacturing is advantageous but not required

If you are someone with strong procurement experience with a strong attention to detail and an independent nature, this opportunity will enable you to further develop your technical expertise in this field.

Apply today or email me at jinhan.huang@jac-recruitment.com/call me at +65 6411 0405 to discuss this new opportunity.

Do note that we will only be in touch if your application is shortlisted.
