Job Description

COMPANY OVERVIEW

Our client is a leading integrated trading company with international presence across 14 countries in Asia&Oceania region.

JOB RESPONSIBILITIES

The role involves overseeing the planning, implementation, operation, user support, promotion, and governance of IT systems, primarily focusing on applications, business divisions, and company support within the Asia & Oceania region

You will be responsible for:

- Coordinating and managing the interests of various internal organizations, including head offices/liaison offices, Tokyo-related groups.
- Regular communication and information exchange with external companies in the same industry and partners.

- Managing multiple projects and numerous system operations concurrently. This includes project management for initiatives introducing new technologies or systems, with a continuous focus on improvement and reform.
- Identify and apply new technologies, particularly in the field of Artificial Intelligence (AI), to enhance our operations.

JOB REQUIREMENTS

- Minimum Degree with team management experience and at least 5 years of relevant working experience.
- Extensive experience in leading application-related projects (ERP, CRM, etc.) across various areas as a Project Manager, Consultant, or in a similar role.
- Possess experience in implementing and promoting Citizen Development (Microsoft Power Platform) and Operation Process Analysis/Automation (RPA).
- Japanese language proficiency is essential to support the communication with Headquarters and Japanese-speaking counterparts (spoken and written).
- Must be willing to travel regionally (Asia) on a monthly or bi-monthly basis.

BENEFITS

Salary: Depends on your experience

Location: Singapore central

Hybrid working arrangement.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
