Job Description

SERVICE ENGINEER

Our client in the lifting and material-handling equipment is looking for a service engineer. This role will provide technical support for 'in service' machines

Key Responsibilities

- Collaborate and communicate effectively with fellow Technical Services, Sales and team members within other business functions
- Thorough Examination and certification - perform mandatory inspections on all AWP machinery
- Service and repair of machines at customer locations / sites or facilities as required to ensure conformance with manufacturers specifications and company policy

- Carry out assessments/inspections and report findings (including BOM, estimated Labour and plan of action) on AWP machinery
- Interact with fellow team members to ensure accurate and timely sharing of information both technical and commercial
- Notify appropriate team member of any defective or unsafe equipment
- Inspect and test wiring and circuitry and replace faulty parts
- Clean parts and equipment using chemical solutions
- Apply finishes and surface coatings to products, using chemicals or by spray painting
- Carry out basic quality checks and support the quality program through closed loop reporting
- Accurate and timely completion of all relevant reports and documentation in support of standard operating procedures

Key requirements

- Technical Diploma or Degree in Engineering
- Driving Licence
- Valid forklift licence (preferred)
- Willing to travel when required

Please send in your resume in MS Word format, kindly include the following particulars

- Reason for leaving
- Last drawn remuneration package
- Notice period

Apply today or email me at sherlynn.lee@jac-recruitment.com or call me at +65 6411 0476 to discuss this new opportunity.

Do note that we will only be in touch if your application is shortlisted.
