Job Description

Our client is a 100% Japanese-owned company and a leader in Software Programming & IT Solutions. Their mission is to provide their clients with high-value technological solutions and services that will help them fulfill their business needs. They provide their technology expertise to find the best solution in the market to meet your business needs, following best practices in software development and a transparent process with frequent deliveries and reviews. Their solution package development team is always on the edge of technology, following global standard development and security processes, and developing the most advanced and competitive products. They also provide best-U'in-class E-Commerce solutions based on their extensive development track record by their professional staff specializing in E-Commerce systems, membership websites, reservation systems, and smartphone app development. Their E-Commerce system construction services improve their client's business value and marketing performance with a unique and integrated E-Commerce platform solution.

❖ Job responsibilities:

- Directly communicate with Japanese clients via email, chat tools, and meetings to meet requirements.
- Analysis requirements & creation/review of design documents (Basic Design, Detail Design)
- Review source code, test case, test script
- Deploy & manage server configuration
- Lead small team (estimate, assign tasks, progress tracking, review output to assure quality, report)
- Manage project timeline, report to clients on a regular basis, and manage project performance.

❖ Required Skills and Experience:**Key Qualifications:**

- More than 3 years of experience in software development as a BrSE role
- Review code & debug skill
- Experience in creating design documents (screen/API/batch design, database)
- Experience in testing (manual or automatic)
- Good programming fundamental, critical, and logical thinking skills
- Japanese: good at conversation & writing (JLPT N2 or above)
- Commitment to excellence and self-improvement
- Proactive in learning

***Nice to have**

- Good knowledge of JavaScript Framework such as Vue, Angular, React
- Good knowledge and experience with HTML/CSS, JavaScript
- AWS configuration.
- Have management skills.

Why Candidate should apply for this position:

Here at TTV, we don't just offer you a job, we offer you a future.

- Competitive salary, allowance, and incentives
- Have a stable career path
- 13-month salary
- An annual project bonus of up to 2 months' salary is based on performance assessment.
- Flexible working time
- Join the dynamic, young, and friendly project team
- Dynamic Union with exciting activities for union members: Relax tour, outdoor trip, movies day, women's day, and payments on special events (New Year, 30/4-1/5, 2/9, and allowances for sick cases)
- Full Insurance according to labor law
- Health Care 24/7 package
- Special allowance for seniority employees, and leaders.
- Special TTV sharing package
- Annual company trip, YEP
