Job Description

COMPANY OVERVIEW

A Local Conglomerate that has quickly risen to prominence with a diversified business specialization in Infrastructure and Electrical Power Transmission projects.

JOB RESPONSIBILITIES

- 1. Electrical System Design & Development: Design, develop, and install telecommunication infrastructure electrical systems, including power supply, distribution, and backup solutions.
- 2. Lead telecommunication system integration, integrating electrical systems with infrastructure like antenna towers, base stations, IBC systems, and fiber optic networks.
- 3. Project Management: Manage electrical and telecommunication projects from design to completion, meeting milestones within scope, budget, and timeline.

- 4. Compliance & Standards: Maintain compliance with electrical, telecommunications, and safety standards (IEEE, IEC, NEC) and industry advancements for all projects.
- Technical Support & Troubleshooting: Offer expert assistance during telecom infrastructure installation and commissioning. Diagnose complex electrical and telecom issues.
- 6. Coordinate with vendors and contractors to procure and install appropriate telecom and electrical equipment.
- Serve as the main point of contact for clients on technical matters, ensuring their needs are met and managing any concerns or changes.
- 8. Prepare and review technical documentation, such as drawings, specifications, and progress reports.

JOB REQUIREMENTS

- · Bachelor's degree in Electrical Engineering, Telecommunications Engineering, or a related field
- Minimum 5 years of experience in both electrical and telecommunication engineering,
- Proficiency in AutoCAD software.
- . Able to speak Mandarin.
