Job Description

A renowned international renewable energy company is looking for a Senior Project Procurement Professional for APAC. The selected candidate will manage local procurement tasks and support project objectives.

A multinational leader in the renewable energy sector. Headquartered in Europe, this company is a true pioneer in providing wind power solutions across the globe.

Keywords:

サプライチェーン, 物流, ロジスティクス, 求人, 外資系

2011950/001

Responsibilities:

- Perform local procurement tasks and support project needs
- Resolve supply-related issues to meet local plant and project goals
- Interface with stakeholders to ensure timely customer care and early procurement involvement
- Contribute to and implement commodity strategies for cost-efficient material supply
- Prepare and conduct negotiations on pricing, payment terms, and contract conditions
- Lead and manage project-specific contracts for logistics and wind farm construction
- Support supplier management processes and update evaluation systems
- Generate, document, and implement savings, and monitor relevant KPIs
- Own assigned projects and act with accountability for stakeholder requests

Requirements:

- Bachelor's degree or above (scientific domain is ideal)
- Proficient in MS Office Suite
- Experience in quality engineering and material planning is a plus
- Understanding of metal processing, mechanicals, or electricals is ideal
- Proficient in written and spoken English and Japanese

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
