### Job Description

The **Supply Planner** is responsible for managing inbound logistics and local production planning to ensure the timely delivery of products. The role focuses on optimizing inventory levels, adjusting production plans based on demand, and collaborating with various internal and external teams to ensure smooth operations.

#### Client Details

This company is a well-established leader in the personal care products industry. With a strong presence in Japan, it is known for its high-quality standards and innovative approach, offering products for both men and women.

#### Description

- **Inventory Optimization:** Maintain optimal inventory levels by balancing supply and demand forecasts and ensuring

products are available for timely customer delivery.

- **Production Planning:** Collaborate with local and international vendors to adjust production schedules based on demand, capacity, and company resources.
- **Co-packing Coordination:** Calculate and monitor copacking requirements, working with the warehouse team to ensure capacity and materials are available.
- **Inventory Management:** Track and analyze inventory performance, addressing slow-moving or obsolete stock in collaboration with commercial teams.
- **Collaboration:** Work closely with teams across Demand Planning, Sales, Marketing, and Warehouse functions to ensure efficient operations and on-time deliveries.

### Job Offer

Work in a company which is driven by innovative solutions and offering a challenging and rewarding environment for professionals in supply chain management.

- **Salary:** Competitive salary of up to ¥7 million annually, depending on experience and qualifications.
- **Professional Growth:** The opportunity to work in a collaborative environment with cross-functional teams, enhancing both your technical and strategic skills in supply chain management.

---

### Required Skills

- Our client is looking for 3 years of experience in supply chain, particularly in inventory and supply planning.
- Strong analytical skills
- Ability to solve problems proactively
- Excellent communication skills (both in English and Japanese) are essential.
- Proficiency in Microsoft Excel and familiarity with SAP is a plus.
