Job Description

We are seeking a Database Manager to lead database administrator team members in overseeing the design, implementation, and maintenance of our database systems, ensuring data integrity, security, and efficient performance.

Client Details

The company is a leading life insurance provider in Japan and is prioritising customer satisfaction through a diverse range of insurance products designed to meet the evolving needs of individuals and families.

Description

In this role, you will collaborate with other IT professionals to oversee the design, implementation, and maintenance of database systems. Additionally, you will monitor database performance, troubleshoot issues, and optimise queries to enhance system efficiency and user experience.

Job Offer

- Competitive salary scheme

- Cutting-edge technology and collaborative team members
- Good work life balance
