Job Description

Selling points

- Full remote or hybrid, depending on candidate's preference
- Fully Flex without core time
- Clear career plan. Performance evaluation twice per year, lots of growth space among different teams
- Flat organization and easy communication within the company

Company Profile

- Our client is one of Japan's largest tech companies with more than 10,000 people from approximately 40 countries and regions, continues to provide services that move users, and contributes to the realization of richer and more convenient lives through the power of the Internet.

The Role

- You will be in charge of the backend of their main application, which handles tens of billions of messages per day.

- You will be responsible for everything from the design, development, testing and post-release operation
- You will be responsible for developing and improving the platform that handles significant and massive traffic in order to sustainably operate it with more efficient resources, while also developing and supporting the backend that creates greater value for people
- You will design API and development of server-side functions for messaging, social graph services and family services
- You will design data structure and development for large-volume data storage with a focus on scale and distributed processing
- You will support continuous improvement of the structure, performance and scalability of the platform, and creating a technical vision for a system that can flexibly respond to diverse business requirements.

Your Skills

- You are either fluent in Japanese or English
- You have strong experience working on large scale systems with millions of users
- Server-side development experience
- You are subject matter of expert with Java as programming language
- You are experienced in operating production systems in Linux/Unix environments
- You have hands-on experience with database operations (MySQL, Redis, HBase, Cassandra, Elasticsearch, etc.)

Welcome:

- You are interested in difficult problems and their solutions in large-scale, highly complex distributed systems
- You can take action to solve problems and take responsibility while involving others

Salary

- 12,000,000 yen - 18,000,000 yen

Location

- Tokyo

Reference number : 06940-0013120727

Company Description

Founded in 1948, Robert Half pioneered the idea of professional talent solutions and is now the world leader in placing accounting, finance, banking, and technology professionals, as well as sourcing and placing candidates for executive search.

With more than 300 offices worldwide, Robert Half makes it easy for job candidates to find the services they need, with office locations in Tokyo and Osaka, Japan.

Robert Half has been recognized as one of FORTUNE's "Most Admired Companies ®" for 25 consecutive years (February 2022).

1948年に設立されたロバート・ハーフは、プロフェッショナル人材ソリューションのパイオニアとして、現在では会計、財務、金融サービス、テクノロジー分野のプロフェッショナル人材の紹介や、エグゼクティブサーチの候補者の発掘・紹介で世界をリードする存在となっています。

世界中に300以上の拠点を持ち、日本には東京と大阪に2つのオフィスを構えています。ロバート・ハーフは25年連続でFORTUNE誌の最も賞賛される企業「Most Admired Company®」の1つに選ばれました。（2022年2月）
