Job Description

We are seeking a Supply Chain Manager in the life science industry. The successful candidate will oversee supply chain operations, ensuring efficient and effective delivery of services, as well as new product launches.

Client Details

Our client is a large organization within the life science industry. They have a global presence and are recognized for their commitment to research and development, contributing to significant advancements in health and well-being.

Description

- Managing and overseeing the entire supply chain process for the organization.
- Coordinating with other departments to ensure smooth operations.
- Creating and implementing strategies to improve productivity and efficiency in the supply chain.
- Developing relationships with suppliers and negotiating contracts.
- Monitoring and managing inventory levels to meet product availability requirements.
- Using SAP software for supply chain management and planning.
- Analyzing supply chain data and performance indicators.
- Ensuring compliance with industry regulations and company policies.

Job Offer

- A very flexible workstyle with the possibility of almost fully remote work.
- A position in a large organization with global presence and significant impact in the life science industry.

We encourage interested candidates who meet the above requirements to apply for this exciting opportunity in Tokyo.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

Required Skills

A successful Supply Chain Manager should have:

- A strong understanding of supply chain management in the life science industry.
 - Proficiency in using SAP software for supply chain planning and management.
 - Strong analytical skills and ability to make data-driven decisions.
 - Excellent negotiation skills and ability to build relationships with suppliers.
 - Strong leadership and team management skills.
 - Understanding of industry regulations and compliance requirements.
