Job Description

COMPANY OVERVIEW

A global construction and engineering firm present in 60 locations worldwide providing innovative solutions and services with expertise in Construction Design, Engineering and Project Management are looking for experienced **BIM Manager (DATA CENTER)** to join their project team based in **Nilai, Negri Sembilan.**

JOB RESPONSIBILITIES

- Responsible for BIM implementation plan in accordance with EIR.

- Coordinate with Project Manager for BIM implementation based on project needs and requirements.

- Coordinate technical issues and drawings for ECI process.

- Ensure timely and high-quality preparation of BIM model-related drawings and documents

- Develop, implement, and maintain the BIM Execution Plan.

- Ensure excellent communication with clients, consultants, contractors, and statutory agencies.

- Continuously reviewing BIM project models, procedures, and methodologies to ensure timely outputs.

- Organize BIM environment and libraries.

- Establish and enforce BIM Standards for production, soft-filing, and hard-filing per Project EIR.

- Give the company direction and leadership in the area of BIM.

- To comprehend ECI process and BIM team activities.

- To facilitate the collection of an adequate quantity of design information and drawings for the production of shop drawings.

- Predict future process, request designer information, and meet master schedule.

JOB REQUIREMENTS

- Minimum 3 to 5 years of working experience as a BIM Manager

- Diploma or Degree in architecture or engineering (CSA, MEP)

- Skilled at AutoCAD and BIM modelling

- Familiar with the latest versions of tools like AutoCAD, Navisworks Manage, REVIT, and others.

- Project experience in Industrial building or Data Center would be advantageous

- Able to be based at the site office in Nilai
