Job Description

Job Summary:
We are looking for an experienced **Data Analyst Lead** to join our team. The ideal candidate will have a strong background in data analysis using **SQL** and **Power BI** and be able to lead and manage a team of 4-5 members. The role requires proficiency in both Thai and English, as you will be collaborating with cross-functional teams and stakeholders.

Key Responsibilities:
- **Team Leadership**: Lead, mentor, and develop a team of 4-5 Data Analysts to ensure high-quality data insights and reporting.
- **Data Analysis & Reporting**: Design and develop complex SQL queries and Power BI dashboards to provide actionable insights for business decision-making.
- Perform DAX and queries and functions in PBI.
- **Stakeholder Management**: Communicate effectively with both internal and external stakeholders in Thai and English to gather requirements, present findings, and support data-driven decisions.
- **Project Management**: Manage and prioritize multiple data projects, ensuring timely delivery and alignment with business goals.
- **Continuous Improvement**: Identify opportunities to enhance data processes and reporting efficiency.

Qualifications:

- **Education**: Bachelor's degree in Data Science, Statistics, Computer Science, or a related field.
- **Experience**: Minimum of 5 years of experience in data analysis, with at least 2 years in a leadership role.
- **Technical Skills**:
  - Proficiency in **SQL** for data querying and manipulation.
  - Strong experience in **Power BI** for data visualization and reporting.

- **Language Skills**: Fluent in both **Thai** and **English** (spoken and written).
- **Leadership Abilities**: Proven track record in managing and mentoring a team.
- **Soft Skills**: Strong analytical mindset, problem-solving abilities, and excellent communication skills.
- **Strong analytical** skills with systematic and structured approach to documenting business needs (modeling, requirement analysis)
