Job Description

Responsibilities:

- **Production Planning:**
 - Monitor and analyze forecast data to estimate capacity requirements and develop production plans.
 - Plan and schedule production activities to meet customer demands efficiently and cost-effectively.
 - Manage raw material inventory levels to ensure timely availability for production.
 - Optimize production capacity to maximize output and minimize costs.
- **Supply Chain Coordination:**
 - Coordinate with various departments, including purchasing, manufacturing, and logistics, to ensure smooth production flow.
 - Oversee import/export operations and manage warehousing activities.
 - Identify and resolve supply chain bottlenecks and disruptions.
- **Problem Solving:**
 - Proactively identify and address production planning challenges.
 - Implement effective problem-solving strategies to minimize downtime and optimize efficiency.

Qualifications:

- Bachelor's degree in supply chain management, Business, Engineering, or a related field.
- 5+ years of hands-on experience in supply chain planning within a manufacturing environment.
- Proven experience in production control, inventory management, and logistics.
- Strong understanding of automotive planning processes (preferred).
- Excellent project management skills and ability to manage multiple tasks simultaneously.
- Advanced proficiency in Microsoft Office applications, especially Excel.
- Strong leadership, problem-solving, and analytical skills.
- Ability to learn quickly and adapt to a fast-paced environment.
- Knowledge of ERP systems.

Essential Job Skills:

- Ability to multi-task and work in a fast-paced environment.
- Strong leadership and problem-solving abilities.
- Ability to learn quickly and adapt to changing circumstances.
- Strong analytical and organizational skills.
- Effective communication and interpersonal skills.
