Putting Customers First

Helping customers is at the heart of what we do. As a Customer Service Associate, your primary responsibilities lie in turning users into loyal customers by providing awesome proactive (reaching out) and reactive (responding) support. You'll primarily communicate with customers via email, Live chat, and our community forum to help customers with pre-sale, product features, order, and shipping issues. You'll also be a voice for the customer, ensuring the company is learning from customer experiences with the product (both good and bad.)

This role requires a love of learning, deep curiosity, and clear writing skills. The right customer solution won't always be obvious, but you see this as part of the fun.

Sustainable growth for White Rabbit Japan is a byproduct of putting our customers and their needs first. Our Customer Success team is a vocal and respected advocate for the customer, and we value strong collaboration with other teams, including Engineering, Marketing, and Fulfillment Ops. We care about your career development as a support professional. We'll ensure you're developing skills and knowledge that will serve you for years.

Required Skills

Preferred qualifications:

- Customer support experience.
- Experience working at early- or growth-stage startups.
- Experience in eCommerce, proxy buying, or Internet products.
- Additional languages are a plus, especially French, Chinese, Spanish, and German.
