Job Description

【About the company ...】

- The company was established in 2018 as a result of a holding company.
- The business is based on the company's traditional software development, system consulting, and integration, and provides customers with a business model that utilizes offshore.
- The company's more than 13,000 employees are constantly learning from their Japanese "mentors" to make the Japanese

"monozukuri spirit" and "quality" their own, and are working hard to become a company that can create Japanese quality with Vietnamese hands.

· They will do their best to contribute to their customers' success, development, and competitiveness through their many talented people who are full of cost, creativity, and ambition.

[Job Description]

[Job Details]

○Focusing on achieving the client's business goals, you will participate in the problem-formation phase together with the client, and be in charge of consulting services that utilize the FPT Group's digital technology platform.

○For major clients in a wide range of industries, you will be responsible for long-term IT strategy planning, strategic outsourcing proposals, application/infrastructure operation improvement, as well as planning, requirements definition, design, and development management for additional development as needed.

[Main Clients]

· Their clients include a wide range of major companies in the domestic financial, manufacturing, and distribution industries.
· Major beverage manufacturers, major telecommunications carriers, major automobile companies, major electric power companies, major insurance companies, major trust banks, major airlines, major consumer electronics manufacturers, etc.

[Attraction of the company and this position]

· FPT Consulting Japan is a rapidly growing company with sales up 300% in three years.
· By combining Japan's high level of technology and commitment to quality with Vietnam's diligent and abundant IT engineering resources, the company has secured a competitive advantage in technology, quality, and cost.
· They have an open-minded and airy work environment that only a foreign company can provide. 90% of their employees are Vietnamese, but the majority of them are fluent in Japanese, so communication within the company is very smooth.
· They are a young company that is just starting to build. There is a place where you can design the company by thinking and creating your own business.
· You will not only be involved in strategic design and planning, but also in the implementation, development, operation, and maintenance of the business and technology.

[Working time]

9:00~18:00

[Welfare]

· Full Social Insurance
· Congratulatory and condolence money
· Comprehensive welfare service (Benefit Station)
· Round trip air ticket to Vietnam once a year (from the second year), company trip
· Youth group activities, safety and health committee
· In-house events: New Year's Party, Cherry Blossom Viewing, Sports Day, Music Festival, Parents Day, Women's Day, Men's Day, Kid's Day, etc.
· Club activities: English, Vietnamese, Japanese classes, futsal, badminton, golf, photography, etc.

[Allowances]

Commuting allowance: Up to 20,000 yen per month

Family allowance: 10,000 yen per dependent (spouse and children)

Housing allowance: 30,000 yen per month

Job allowance

Fixed overtime allowance of 40 hours per month (from 80,000 yen) is included (excess hours will be paid separately).

[Holiday]

- Saturday/Sunday/National Holiday
- Annual Paid Leave
- New Year Holiday
- Special Paid Leave
- Summer Holiday
- Others

Required Skills

[Required]

○Experience in any of the following.

· 3+ years of experience as an IT consultant at a consulting firm.
· Experience as a system engineer at a Sier, with 3+ years of experience in upstream processes (problem analysis, requirements definition, etc.).

○In addition to the above, you should be familiar with the industry and business knowledge of the clients you are responsible for.

[Preferred]

- Interest, knowledge, and experience in the latest technologies (AI, IoT, cloud, microservices, etc.).
- Experience in handling global projects and working with foreign companies and people.
- Experience related to offshore development.
- High level of English proficiency.

[Ideal Applicants]

- Results-oriented, with the ability to focus on and drive problem solving.
- Strong logical thinking.
- Open-minded, highly adaptable, and loves to take on new challenges.
- A teamwork mentality.

[Employer's background]

Many of them are from consulting firms. (Accenture, PwC, Deloitte, Capgemini, Sigmex, Hitachi Consulting, etc.)
Mr. Masakatsu Mori, former chairman of Accenture, has been appointed as an executive advisor.
