Job Description

【求人No NJB2240758】

The Role:

- Contamination control in the semiconductor manufacturing process has been getting more and more critical and the filtration/purification technology in photolithography has been more focused to move to an advanced technical node.
- Our team is looking to meet a talented product manager with great insight into photolithography applications to develop commercial technologies that support development of the most advanced semiconductor applications in the world. With the

fast pace of innovations semiconductors you must be able to manage multiple diverse and complex projects with often changing scopes and customer timelines. An ideal candidate must be able to adapt to changing market conditions quickly and often. We expect that you'll collaborate share and be ready to learn in a team that partners closely with customers.

· As parts of Entegris' photo lithography marketing team the product manager is responsible for coordinating and managing all elements of new or existing products and projects within assigned product line (s) including product line profitability new product development product training product line forecasting product life cycle management and develops Sales/Marketing tools and collateral. In this diverse role the expectation is to set your own your vision and drive it forward in a global organization with best in class commercial technologies that solve some of the world's most challenging contamination challenges.

In this role you will:

- Be a great teammate willing to share ideas and experiences.
- Learn from the depth of experience your teammates provide.
- Understand photo lithography and our customers requirement.
- Business English skill to communicate with people in worldwide
- Take ownership of an idea and develop it through to commercial activities.

· IC回路微細化に伴い、フォトリソグラフィ材料におけるコンタミネーションコントロールの要求が厳しくなっており、フィルトレーション/ピュリフィケーションの役割がより重要な位置づけになってきています。
 · 最先端フォトリソグラフィアプリケーションに精通し、且つ、日々変化する顧客の要求並びにタイムラインに応えるべく、社内各部署との連携をとり、多様な開発プロジェクトを遂行できる能力を持ち合わせたプロダクトマネージャーを募集します。また、プロダクトマーケティングの一員とし、新規製品開発案件並びに既存製品のマネジメント、新製品開発起案、製品トレーニング、フォーキャストリング、製品販売戦略立案等、担当製品群に関わる一連の業務を担当頂き、グローバル組織の中で活躍頂く事を期待します。

Required Skills

- An appetite to investigate the seemingly impossible and make a compelling case to move your vision forward
- Is able to develop market/product plans and product market place positioning
- Lithography process in FAB experience
- Bachelor's Degree in Chemistry Engineering Material Science or related field. MS MBA or marketing experience preferred; or an equivalent combination of training and experience
- A commitment to be an evangelist for your products services and messages
- Loves customer interaction and has the ability to interpret customers challenges into solutions only Entegris can provide
- Has the ability to take on assignments with broad objectives where guidance is provided on critical issues only.
- Can travel domestically and internationally
