Job Description

Responsibilities:

- Conduct GC-MS analyses of flavor compounds to determine their composition and concentration.
- Develop and optimize GC-MS methods for various flavor applications.
- Interpret and analyze GC-MS data to identify and quantify flavor components.
- Collaborate with research and development teams to support the development of new flavor products.
- Maintain and calibrate GC-MS equipment to ensure accurate and reliable results.
- Stay updated on the latest advancements in GC-MS technology and techniques.

Qualifications:

- Bachelor's degree in Chemistry, Chemical Engineering, or a related field.
- Minimum 5 years of experience in GC-MS analysis, preferably in the flavor industry.
- Strong knowledge of GC-MS principles, techniques, and instrumentation.
- Proficiency in data analysis software (e.g., ChemStation, MassLynx).
- Excellent problem-solving and analytical skills.
- Attention to detail and ability to work independently.
- Strong communication and interpersonal skills.
