Job Description

We are a US based CNC manufacturing facility serving both international and domestic markets. Our Penang plant has both PCBA Tooling and Precision Machining divisions, providing highest quality parts, products, and services to various demanding industries. If you are an enthusiastic and driven leader, we want you!

Job Descriptions

- Developing and implementing operational strategies and policies
- Setting and monitoring KPI and operational metrics
- Analyzing and optimizing production processes and workflows
- Managing and resolving operational issues and risks
- Hiring, training, motivating, and evaluating employees
- Ensuring compliance with EHS standards and regulations
- Implementing and maintaining QMS and re/certifications,
- Negotiating and managing contracts and agreements with vendors and customers

Job Requirements

- Bachelor's Degree or higher in Engineering or relevant fields
- At least 10 years of experience in plant operations, preferably in a leadership role
- Sound knowledge of equipment, technologies, production planning, inventory management, supply chain management, quality management, lean manufacturing, and continuous improvement methodologies

- Strong analytical problem-solving and decision-making skills
- Ability to lead, motivate, and inspire a diverse team

If this opportunity sounds of interest to you then please send your resume to the quick apply button at the bottom of this page.
