Job Description

COMPANY OVERVIEW

Ranked in the Top 10 list of companies in the world that specializes in renewable energy solutions mainly Solar systems and panels.

JOB RESPONSIBILITIES

- Accountable for supervising and directing all operational activities associated with the installation and maintenance of solar energy systems.
- Collaborate with project engineers, technicians, and subcontractors to ensure all projects are completed on time and within the budget.
- Formulating and executing operational strategies, establishing budgets, enhancing processes, and ensuring compliance with industry regulations and safety standards.

- **Accountable for the overall project management and to oversee the project financial modeling, proposal preparations and presentations for PPA and EPC agreements**
- **Accountable for overseeing inventory, equipment, and supplies, while fostering robust relationships with suppliers and vendors.**
- **Achieving installation objectives and complying with regulatory standards.**
- **To play a pivotal role in the selection of contractors, suppliers, and vendors, while also performing comprehensive evaluations of installation tasks, project scopes, and vendor design proposals to guarantee seamless project execution.**
- **Advise clients on both technical and commercial issues according to their requirements.**
- **Collaborates with the engineering and logistics teams to facilitate seamless operations and resolve any emerging issues.**

JOB REQUIREMENTS

- **Minimum of 5 years of hands-on experience in renewable energy project development, with a strong emphasis on solar energy.**
- **Ability to effectively manage multiple projects.**
- **Willing to travel within Malaysia and overseas**
- **Good communications skills (Proficiency in Mandarin will be advantageous)**
