### Job Description

#### COMPANY OVERVIEW

**A Local Conglomerate that has quickly risen to prominence with a diversified business specialization in Infrastructure and Electrical Power Transmission projects.**

#### JOB RESPONSIBILITIES

- 1. Electrical System Design & Development:** Design, develop, and install telecommunication infrastructure electrical systems, including power supply, distribution, and backup solutions.
- 2. Lead telecommunication system integration,** integrating electrical systems with infrastructure like antenna towers, base stations, IBC systems, and fiber optic networks.
- 3. Project Management:** Manage electrical and telecommunication projects from design to completion, meeting milestones within scope, budget, and timeline.

4. **Compliance & Standards:** Maintain compliance with electrical, telecommunications, and safety standards (IEEE, IEC, NEC) and industry advancements for all projects.
5. **Technical Support & Troubleshooting:** Offer expert assistance during telecom infrastructure installation and commissioning. Diagnose complex electrical and telecom issues.
6. **Coordinate with vendors and contractors to procure and install appropriate telecom and electrical equipment.**
7. **Serve as the main point of contact for clients on technical matters, ensuring their needs are met and managing any concerns or changes.**
8. **Prepare and review technical documentation, such as drawings, specifications, and progress reports.**

#### **JOB REQUIREMENTS**

- Bachelor's degree in Electrical Engineering, Telecommunications Engineering, or a related field
- Minimum 5 years of experience in both electrical and telecommunication engineering,
- Proficiency in AutoCAD software.
- Able to speak Mandarin.
