### Job Description

Position: Truck Maintenance Manager

Responsibilities:

- Manage and coordinate the daily maintenance activities for the truck fleet, ensuring all vehicles are maintained in accordance with company policies and manufacturer specifications.
- Supervise, train, and support a team of mechanics and maintenance personnel. Assign tasks, evaluate performance, and ensure team adherence to safety protocols.
- Develop and manage preventive maintenance schedules to minimize downtime and ensure all vehicles are operational. Track and document maintenance activities.
- Ensure that all trucks comply with safety and regulatory standards, including regular inspections, repairs, and documentation. Implement safety programs and conduct safety audits.
- Oversee the inventory of parts and supplies needed for truck maintenance. Ensure timely ordering of parts to avoid

delays in repairs and maintenance.

- Manage the maintenance budget, track expenses, and find cost-effective solutions for repairs and maintenance. Work to reduce costs while maintaining quality standards.
- Coordinate with external vendors and service providers for specialized repairs, warranty work, and sourcing of parts.
- Monitor and analyze vehicle performance data to identify opportunities for improving efficiency, extending vehicle life, and reducing operational costs.

Qualifications:

- Bachelor's degree in mechanical engineering, Engineering or a related field.
- 10 years' experience in management.
- Strong knowledge of maintenance processes, equipment, and best practices. (Truck, Heavy machinery)
- Strong problem-solving skills and attention to detail.
- Proficiency in maintenance management software and tools.
- Good Communications.
