Job Description

Highlight:

- Good career advancement.
- Expertise in developing Salesforce solutions.
- Experience in using NoCode, LowCode, ProCode and developing web systems or implementing SaaS packages.

Our client is delivering IT services and solutions. They are looking for a Project Manager who has a strong background in Salesforce features and configuration.

Location: Bangkok.

Responsibilities

- Create and implement Salesforce solutions that satisfy corporate needs.
- Collaborate with interested parties to comprehend business requirements and convert them into Salesforce solutions.
- Development and maintenance of custom applications by using Apex, Visualforce, Lightning Web Component (LWC), and other technologies can be used to customize Salesforce applications.
- Integrate Salesforce with other systems, including ERP and marketing automation systems by using Mulesoft or other ETL/ESB solutions.

- Engage in code reviews and make sure best practices are followed.
- Work with cross-functional teams to create high-quality solutions on schedule and under budget. Keep abreast on Salesforce releases and new features.

Qualifications:

- Possessing a constant positive outlook when taking on new tasks.
- Taking an interest in both code development and resolving business difficulties for customers.
- 3+ years of experience with system development and customization.
- Web application development experience, including front-end and back-end development.
- Capable of working independently and collaboratively.
- Native Thai speaker with strong English communication skills (both speaking and writing).
