Job Description

Job Title: MEP Electrical Project Manager

Job location: Delhi NCR

Responsibilities:

- **Project Planning and Design:**

- Oversee the planning, design, and implementation of electrical systems within MEP projects.
- Collaborate with architects, engineers, and construction teams to ensure electrical systems are integrated into the overall project design.

- **Budget Management:**

- Estimate costs for materials, labor, and equipment.
- Manage project budgets and control costs within financial limits.

- **Installation and Supervision:**

- Plan and supervise the installation of electrical systems.
- Ensure work is completed on time, within budget, and according to project specifications.

- **Quality Assurance:**

- Perform quality inspections to verify that installations meet industry standards and comply with regulations.

- **Stakeholder Communication:**

- Facilitate communication between clients, contractors, and team members.
- Ensure a clear understanding of project timelines and requirements.

- **Contract Negotiation:**

- Negotiate contracts with suppliers and subcontractors.
- Ensure favorable terms and compliance with project specifications.

- **Innovation and Sustainability:**

- Implement innovative technologies and sustainable practices to improve efficiency and reduce environmental impact.

Qualifications:

- Bachelor's degree in Electrical Engineering or a related field.
- Must have strong experience working in Industrial projects with strong experience into project management for MEP projects.
- Strong project management and leadership skills.
- Excellent communication and negotiation abilities.
- Proficiency in relevant software and tools.
