#### Job Description

Our client, a global leader in e-commerce and digital services, is looking for security engineer. This role involves working closely with the global security team to support security projects.

#### Client Details

Our client is global technology company, known for its e-commerce platform, online banking, digital content, and telecommunications services. They operates in multiple countries, so understanding cultural differences and multilingual support might be beneficial.

#### Description

- Assist in managing vulnerabilities post-assessment, ensuring timely remediation or risk acceptance to minimize security gaps.
- Collaborate with development and security teams to proactively identify and mitigate potential risks, enhancing overall system security.
- Coordinate meetings, communications, and documentation for both security and development teams, ensuring smooth collaboration and efficient decision-making.
- Simplify and communicate security concepts to both technical and non-technical stakeholders, ensuring

- understanding across all levels of the organization.
- Support the team with various assigned tasks, providing key logistical assistance to streamline department operations and enhance productivity.

#### **Job Offer**

- A dynamic, energetic working environment with good work/life balance
- Open culture and job rotation available to enable internal career development
- Competitive salary and benefits package
- Opportunity for growth and advancement within the company
- Collaborative and supportive team environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ayaka Iwaki at +81 3 6832 8658.

---

#### **Required Skills**

- Understanding of networking protocols (TCP/IP, HTTP, DNS, etc.), firewalls, routers, and switches.
  - Understanding of common security principles (confidentiality, integrity, availability).
  - Good skill to collaborate with various teams, such as development, IT, and compliance teams, so teamwork skills are vital.
-
