Visa Status

Permission to work in Japan required

Job Description

Join a dynamic team managing Kubernetes and Istio platforms, ensuring scalability, security, and performance for high-traffic systems. You'll handle provisioning, incident response, and system migrations while contributing to private cloud innovations in a collaborative, diverse environment.

**Must be living in Japan or have a valid visa.

Client Details

A global technology leader with a reputation for fostering innovation and excellence. This company supports a diverse, international work culture and drives large-scale, impactful cloud-based projects.

Description

- Manage Kubernetes, Istio, Linux, and other cloud platforms.
- Handle node/cluster provisioning, incident response, and system updates.
- Ensure compliance with security requirements and operational guidelines.
- Provide migration support from legacy systems to modern platforms.

Job Offer

- Exposure to cutting-edge tools and platforms (Kubernetes, Istio, Prometheus, Datadog).
- A collaborative, multicultural team environment.
- Opportunities for long-term employment.
- Weekends and holidays off, with a 9:00-17:30 work schedule.
- Free meals for breakfast, lunch, and dinner.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Naoko Toda at +81 3 6832 8648.

Required Skills

- 3+ years of hands-on infrastructure administration experience.
 - Expertise in Kubernetes, Linux, and large-scale system operations (100+ servers).
 - Strong troubleshooting skills and familiarity with networking and HA structures.
 - Team-oriented, detail-focused, and committed to operational excellence.
 - Certified Kubernetes Administrator (CKA) or ability to certify within 3 months.
 - **Must be living in Japan or have a valid visa.
