## Job Description

### Company:

Our client is a prominent global IT service provider that excels in custom software design, IT consultancy, and infrastructure management. They deliver high-performance, large-scale systems like API Gateways and message queues, ensuring smooth global operations and enhanced system reliability. Their comprehensive IT solutions help businesses eliminate challenges, optimize resources, and boost productivity.

### Key Requirements:

- At least 5 years of experience in team leadership, including managing budgets, schedules, and resources.
- Proven project management experience across multiple projects.
- Expertise in OnPrem, Cloud, Network, and Server operations for cost estimation.
- Strong communication skills in English; knowledge of Japanese and Mandarin is a plus.
- Bachelor's degree in any discipline.

- Ability and willingness to adapt to new technologies.
- Capability to work independently in a fast-paced environment.
- Familiarity with cloud services-related software and hardware is advantageous.
- Knowledge of security services-related software and hardware is beneficial.
- Experience with software-defined data centers or cloud service infrastructure projects is a plus.
- Willingness to travel for project assignments is beneficial.

**Key Responsibilities:**

- Manage team budgets during closing periods and annual budgeting or forecasting.
- Accurately allocate and manage resources.
- Oversee internal proposal processes before sharing with customers.
- Support PMO checks as needed.
- Facilitate knowledge transfer and operation handover between project and operation teams.
- Manage relationships with business partners and vendors.
- Maintain customer relationships as needed.
- Lead team members in estimating project costs.
- Escalate and report major project issues to managers.
- Provide daily reports to managers on budget, resources, and project schedules.
- Conduct daily team management and meetings as a mandatory task.

Working Location: Singapore, Central
