This role involves ensuring compliance with all relevant regulations and standards, managing regulatory submissions, and providing expert guidance to cross-functional teams.

Key Responsibilities:

- Conduct research and analysis on regulatory requirements and industry trends to stay up-to-date with the latest developments.

- Develop and maintain regulatory submission strategies, ensuring timely and accurate submissions.
- Coordinate with cross-functional teams, including R&D, quality, and production, to gather information for regulatory submissions.
- Interact with regulatory agencies to ensure timely review and approval of submissions.
- Develop and implement processes for tracking and monitoring regulatory compliance.
- Provide guidance to internal teams on regulatory requirements, including labeling and packaging requirements.
- Ensure that all regulatory documentation is up-to-date and easily accessible.
- Provide training to internal teams on regulatory requirements and best practices.
- Prepare and maintain regulatory reports and metrics.

Qualifications:

- Bachelor's degree in Regulatory Affairs, Life Sciences, Chemistry, or a related field.
- Minimum of 5 years of experience in regulatory affairs, specifically within the Food & Beverage industry.
- **Strong understanding of international regulatory guidelines and standards.**
- **Experience with regulatory submissions for food packaging materials and products used in the Food & Beverage industry.**
- **Strong proficiency in English communication**
- Excellent organizational and communication skills.
- Ability to work independently and as part of a team.
- Attention to detail and ability to manage multiple projects simultaneously.
