Job Description

Responsibilities

- Analyze existing UI designs and propose improvements with consideration for implementation.
- Create wireframes, prototypes, and mockups, while understanding the constraints of front-end technologies.
- Design common components and create specification guidelines for the engineering team to use.
- Work closely with Product Managers and Front-End Engineers to ensure smooth collaboration and communication.
- Conduct design reviews, gather feedback, and incorporate it into the product.

Tools

- **Test Management**: Qase
- **Task Management**: GitHub, Asana
- **Communication Tools**: Discord
- **Tech Stack**: Elixir, Phoenix, Vue, Typescript, PostgreSQL, Elasticsearch, AWS

Work Environment

- Optimized communication tools that support effective teamwork in a remote work environment.
- Encouragement to address technical debt, adopt new technologies, and experiment with innovative ideas.
- Many of the engineers in the company are from overseas, providing ample opportunities to use **English** regularly.

Required Skills

Required Skills

- At least **3 years of practical experience** in **UI/UX design**.
- Experience designing for software or SaaS products (experience with B2B or B2C is acceptable).
- Experience using modern design tools like **Figma** in an **agile development** environment.
- A basic understanding of front-end technologies such as **HTML, CSS, and JavaScript**.
- Experience working in an **agile development** environment on design tasks.
- **English communication skills** (reading, writing, and speaking): A basic level of communication is sufficient, business-level proficiency is not required.
- Native-level proficiency in Japanese.

Preferred Skills

- Design experience in **B2B software** or **SaaS products**.
- Experience in the **real estate industry** or related fields.
- Experience building or maintaining a **design system**.
- Practical experience in **front-end development**.
- A basic understanding of modern **JavaScript frameworks** such as **React** or **Vue.js**
