Job Description

BIM Executive

A top-tier global construction and engineering firm providing innovative solutions and services as a general contractor in Construction, Design (Architectural, Structural, Mechanical and Electrical), Construction Management, Engineering and Property Development:

- A global network of 100 offices around the world.
- 50+ successful projects completed in Malaysia ranging from residential, commercial, warehouses, factories, industrial facilities and infrastructure projects.

JOB RESPONSIBILITIES:

- **BIM Modeling and Coordination:** Develop and manage 3D models using BIM software, ensuring coordination across disciplines like architecture, structure, and MEP.
- **Clash Detection and Resolution:** Identify and resolve design conflicts in the BIM model using tools like Navisworks.
- **Collaboration with Project Teams:** Work closely with architects, engineers, and construction teams to integrate BIM processes into project workflows.
- **BIM Standards and Compliance:** Ensure all models and drawings adhere to relevant BIM standards and project-specific guidelines.
- **Quality Assurance:** Conduct regular audits and quality checks on BIM models to ensure accuracy and compliance with project requirements.

JOB REQUIREMENTS:

- 5+ years of experience on building sites with a CSA background (MEP is a plus).
- Proficient in ideally Revit or Navisworks/ACC for coordination and modelling tasks, including creating section or plan drawings.
- Strong technical skills related to site matters.
- Able to work full-time on-site located in Penang.
