### Job Description

#### COMPANY OVERVIEW

A global construction and engineering firm present in 60 locations worldwide providing innovative solutions and services with expertise in Construction Design, Engineering and Project Management are looking for experienced **BIM Manager** for a Data Center project and be based in **Kuala Lumpur**.

#### JOB RESPONSIBILITIES

- Responsible for BIM implementation plan in accordance with EIR.
- Coordinate with Project Manager for BIM implementation based on project needs and requirements.
- Coordinate technical issues and drawings for ECI process.
- Ensure timely and high-quality preparation of BIM model-related drawings and documents
- Develop, implement, and maintain the BIM Execution Plan.
- Ensure excellent communication with clients, consultants, contractors, and statutory agencies.
- Continuously reviewing BIM project models, procedures, and methodologies to ensure timely outputs.

- To facilitate the collection of an adequate quantity of design information and drawings for the production of shop drawings.
- Predict future process, request designer information, and meet master schedule.
- Conducting an ongoing assessment of BIM project models, protocols, and methodologies to guarantee the timely delivery of project deliverables.
- Organise the BIM environment and libraries, as well as the scheduling of deliverables.
- Lead to the collection of an adequate amount of design information and drawings for the production of shop drawings.
- To ensure that the master schedule is met
- Manage BIM folders in BIM360 for the specific project.

#### **JOB REQUIREMENTS**

- Minimum 3 to 5 years of working experience
- Diploma or Degree in architecture or engineering (CSA, MEP)
- Skilled at AutoCAD and BIM modelling
- Familiar with the latest versions of tools like AutoCAD, Navisworks Manage, REVIT, and others.
- Project experience in Industrial building or Data Center would be advantageous
- Be based in Kuala Lumpur but willing to travel if needed
