Job Description

This position is for a dedicated IT support professional, ready to utilize their skills in a thriving B2C industry. The role requires a team player who can efficiently address technical issues and provide support to ensure smooth operations.

Client Details

Our client is a top-tier entity within the consumer goods industry. As a large organization located in Shibuya, they pride themselves on their strong commitment to excellence and innovation. Their strong market presence contributes to a stable and growing environment, making them a preferred employer.

Description

- Provide timely and effective IT support to all departments.
- Ensure the security of the IT infrastructure, including data and network access.
- Assist in the planning and implementation of IT projects.
- Collaborate with team members to achieve objectives and improve services.
- Train staff on appropriate and secure use of technology.
-

Job Offer

- An estimated salary range of 6 to 7 million JPY, depending on experience and qualifications.
- A rewarding work environment with a strong team spirit.
- Excellent benefits package, including annual holiday leave and a competitive bonus structure.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Peryhan Essam on +813 6832 8691.

Required Skills

A successful IT support should have:

- Proven experience in an IT support role for atleast 3 years.
 - Strong understanding of IT systems and infrastructure.
 - Excellent problem-solving and communication skills in Japanese and English.
 - Knowledge of industry regulations and standards.
 - Ability to work independently and collaboratively.
 - Customer-oriented mindset with a focus on service quality.
-
