Job Description

1. Manage the Indonesia Application Laboratory and support Sales on Taste Solution, Color and Food Protection product lines, through technical problem solving (using strategies including development of new concepts, application formulation and product codes from existing raw materials) and managing customer projects.

2. To support the strategy of the Global Applications & Development group, as it relates to vision and mission, sharing information, development of scientists, collaboration, support, and alignment with other functions, and ensuring high quality technical work.

3. If necessary, there may be laboratory research related to the validation and characterization of spice and herb extracts that lead to the development of new products

Company Description
