Job Description

Position: BUSINESS ANALYST – Petrochemical / Oil&Gas

Product: Petrochemical

Location: Bangkok

Salary: 30,000 – 50,000 THB

Job Summary:

The Business Analyst will serve as the primary point of contact for market updates and analysis, focusing on energy news, macroeconomics, financial market news, and regulations, including alternative fuels. The role requires staying fully conversant with changes in government rules and regulations that impact customers and the company in terms of commercial transactions.

Key Responsibilities:

- Provide analysis on energy news, macroeconomics, financial market news, and regulations.
- Stay updated on changes in government rules and regulations affecting relevant products.
- Analyze and monitor movements and developments in the paper market for crude and related products.
- Develop a thorough understanding of market trends and price forecasting to manage plans under high market volatility.
- Monitor, update, analyze, and forecast local, regional, and global macroeconomics and financial markets (short, medium, and long term).
- Assess the impact of economic changes on company group business.
- Monitor, update, and analyze economic indicators for domestic, regional, and global petroleum demand/supply forecasts.
- Develop marketing plans and identify possible price risk management strategies to align with the company's profitability goals and vision.
- Propose price risk management strategies to the price risk management committee.
- Execute price risk management activities according to agreed strategies, plans, and targets.
- Maintain relationships with traders, refiners, government agencies, publishers, etc.
- Exchange necessary market information to ensure accurate and timely forecasts and actions.

Qualifications:

- Bachelor's degree or higher in Chemical Engineering, Chemical Technology, Petroleum, Petrochemical Technology, other engineering or related field.
- Open for new graduate students.
- Strong analytical and problem-solving skills.
- Excellent understanding of macroeconomics, financial markets, and energy sector regulations.
- Proficiency in market trend analysis and price forecasting.
- Ability to develop and maintain professional relationships.
- Strong communication and presentation skills.
- High sense of responsibility and ability to work independently or as part of a team.
